## **Standard Foods Corporation and Subsidiaries**

Consolidated Financial Statements and Independent Auditors' Report Ended on September 30, 2024 and 2023

#### INDEPENDENT AUDITORS' REVIEW REPORT

The Board of Directors and Shareholders Standard Foods Corporation

#### Introduction

We have reviewed the accompanying consolidated balance sheets of Standard Foods Corporation and its subsidiaries (collectively, the "Group") as of September 30, 2024 and 2023 and the related consolidated statements of comprehensive income, the consolidated statements of changes in equity and cash flows for the nine months then ended, and the related notes to the consolidated financial statements, including material accounting policy information (collectively referred to as the "consolidated financial statements"). Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers and International Accounting Standard 34 "Interim Financial Reporting" endorsed and issues into effect by the Financial Supervisory Commission of the Republic of China. Our responsibility is to express a conclusion on the consolidated financial statements based on our reviews.

#### **Scope of Review**

Except as explained in the following paragraph, we conducted our reviews in accordance with the Standards on Review Engagements of the Republic of China 2410 "Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of consolidated financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

#### **Basis for Qualified Conclusion**

As disclosed in Note 14 to the consolidated financial statements, the financial statements of non-significant subsidiaries included in the consolidated financial statements referred to in the first paragraph were not reviewed. As of September 30, 2024 and 2023, combined total assets of these non-significant subsidiaries were NT\$8,585,981 thousand and NT\$8,035,001 thousand, respectively, representing 32% and 29%, respectively, of the consolidated total assets, and combined total liabilities of these subsidiaries were NT\$1,867,023 thousand NT\$2,328,406 thousand, respectively, representing 21% and 24%, respectively, of the consolidated total liabilities; for the three months ended September 30, 2024 and 2023 and for the nine months ended September 30, 2024 and 2023, the amounts of combined comprehensive income of these subsidiaries were NT\$107,198 thousand, NT\$35,629 thousand, NT\$240,057 thousand and NT\$83,099 thousand, respectively, representing 23%, 6%, 15% and 8%, respectively, of the consolidated total comprehensive income. As disclosed in Note 36 to the consolidated financial statements, the information on these subsidiaries were not reviewed.

#### **Qualified Conclusion**

Based on our reviews, except for the adjustments, if any, as might have been determined to be necessary had the financial statements of the non-significant subsidiaries as described in the preceding paragraph been reviewed, nothing has come to our attention that caused us to believe that the accompanying consolidated financial statements do not present fairly, in all material respects, the financial position of the Group as of September 30, 2024 and 2023, and of its consolidated financial performance and its consolidated cash flows for the nine months ended September 30, 2024 and 2023 in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers, and International Accounting Standard 34 "Interim Financial Reporting" endorsed and issues into effect by the Financial Supervisory Commission of the Republic of China.

The engagement partners on the reviews resulting in this independent auditors' review report are Han-Ni Fang and Zhao-Yu Chen.

Notes to Consolidated Financial Statements

For the nine months ended September 30, 2024 and 2023

(In Thousands of New Taiwan Dollars, Unless Stated Otherwise)

1. GENERAL INFORMATION

Standard Foods Corporation (the "Company") was incorporated on June 6, 1986. The

Company mainly manufactures and sells nutritious foods, edible oils, dairy products and

beverages.

The Company's shares have been listed on the Taiwan Stock Exchange since April 1994.

The consolidated financial statements of the Company and its subsidiaries, collectively

referred to as the "Group," are presented in the Company's functional currency, the New

Taiwan dollar.

2. DATE AND PROCEDURES FOR APPROVAL OF FINANCIAL STATEMENTS

The consolidated financial statements were approved by the Board of Directors on

November 4, 2024.

3. APPLICATION OF NEW, AMENDED, AND REVISED STANDARDS AND

**INTERPRETATIONS** 

a. The first-time application of the International Financial Reporting Standards (IFRS),

International Accounting Standards (IAS), IFRIC Interpretations (IFRIC), and SIC

Interpretations (SIC) (hereinafter referred to as "IFRSs") endorsed and issued into effect

by the Financial Supervisory Commission (FSC).

The application of the IFRSs recognized and issued into effect by the FSC should not

result in major changes in the accounting policies of the consolidated company (the

"Group").

Note 1: Unless stated otherwise, the above New/Amended/Revised Standards and Interpretations are effective for annual reporting periods beginning on or after their respective effective dates.

As of the date of authorization of the Consolidated Financial Statements, the Group has continued to assess the other effects of amendments to the other standards and interpretations on its financial conditions and performance. Related impacts will be disclosed upon completion of the assessment.

#### 4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

#### a. Statement of compliance

The consolidated financial report was formulated in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers and IAS 34 "Interim Financial Reporting" recognized and announced to enter into effect by FSC. The consolidated financial statements do not include all IFRSs disclosure information required by the annual financial report.

#### b. Basis of preparation

The consolidated financial statements have been prepared on the historical cost basis except for financial instruments which are measured at fair value and net defined benefit liabilities which are measured at the present value of the defined benefit obligation less the fair value of plan assets.

The fair value measurements, which are grouped into Levels 1 to 3 based on the degree to which the fair value measurement inputs are observable and the significance of the inputs to the fair value measurement in its entirety, are described as follows:

- 1) Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities on the measurement date;
- Level 2 inputs are inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e., as prices) or indirectly (i.e., derived from prices); and
- 3) Level 3 inputs are unobservable inputs for the asset or liability.

#### c. Basis of consolidation

The consolidated financial statements incorporate the financial statements of the Company and the entities controlled by the Company (i.e., its subsidiaries). Income and

expenses of subsidiaries acquired or disposed of during the period are included in the consolidated statements of comprehensive income from the effective dates of acquisitions up to the effective dates of disposals, as appropriate. When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies into line with those used by the Group. All intra-group transactions, balances, income and expenses are eliminated in full upon consolidation. Total comprehensive income of subsidiaries is attributed to the owners of the Company and to the non-controlling interests even if this results in the non-controlling interests having a deficit balance.

Refer to Note 14 and Tables 7 and 8 for detailed information on subsidiaries (including the percentages of ownership and main businesses).

d. Other Significant Accounting Policies

Except for the following, please refer to the summary of material accounting policies in the 2023 consolidated financial statements.

1) Classification of current and non-current assets and liabilities

Current assets include:

- (1) Assets held mainly for the purpose of trading;
- (2) Assets expected to be realized within 12 months after the balance sheet date; and
- (3) Cash and cash equivalents (excluding those restricted from being exchanged or used to settle a liability for at least 12 months after the balance sheet date).

Current liabilities include:

(1) Liabilities held mainly for the purpose of trading;

- (2) Liabilities due to be settled within 12 months after the balance sheet date (even if a long-term refinancing or payment rearrangement agreement is completed after the balance sheet date and before the financial statements are approved for publication, they are also classified as current liabilities); and
- (3) Liabilities for which there is no substantive right to defer the settlement period to at least 12 months after the balance sheet date.

Assets or current liabilities that are not classified as above are classified as non-current assets or non-current liabilities.

#### 2) Pension Benefit in a Defined Benefit Plan

The pension cost for the interim period is calculated based on the actuarial cost ratio determined by the actuarial calculation at the end of the previous year. Calculation term is from the beginning of the period to the end of the period, and adjustments are made for major market fluctuations in the current period, major amendments to plans, settlement, or other significant one-time matters.

#### 3) Income tax

Income tax expenses are the sum of current income tax and deferred income tax. The interim income tax is evaluated on an annual basis and the interim profit before tax is applied with the tax rate applicable to the expected total annual earnings for calculations.

## 5. CRITICAL ACCOUNTING JUDGEMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY

The key sources of major accounting judgments and uncertainty of estimation and assumptions adopted in these consolidated financial statements are the same as those in the consolidated financial statements for the year ended December 31, 2023.

These investments by the Group are held for medium- to long-term strategic purposes and the Group expects to profit from long-term investments. Accordingly, the management elected to designate these investments in equity instruments as at fair value through other comprehensive profit or loss as they believe that recognizing short-term fluctuations in these investments' fair value in profit or loss would not be consistent with the Group's strategy of holding these investments for long-term purposes.

In August 2024, the Group adjusted the investment position to diversify the risk and sold the ordinary shares of Formosa Plastics Corporation and China Steel Corporation at the price of NT\$23,878 thousand. The related other equity – unrealized gain (loss) on financial assets at FVTOCI, NT\$2,279 thousand, was restated into the retained earnings.

In September 2023, the Group adjusted the investment position to diversify the risk and sold the ordinary shares to InnoComm Mobile Technology Corp. at the price of NT\$51,912 thousand. The related other equity – unrealized gain (loss) on financial assets at FVTOCI, NT\$13,172 thousand, was restated into the retained earnings.

The Group's credit period for commodity sales averages 30~90 days. To minimize credit risk, the management of the Group has delegated a team responsible for determining credit limits, credit approvals and other monitoring procedures to ensure that follow-up action is taken to recover overdue debts. In addition, the Group reviews the recoverable amount of each individual receivable on the balance sheet date to ensure that adequate allowances are made for possible irrecoverable amounts.

The Group adopts the simplified approach of IFRS 9 to measures the loss allowance for trade receivables at an amount equal to lifetime expected credit losses (ECLs). The Group performs assessment using the three forward-looking factors, i.e., industrial index of the customer, GDP growth rate and unemployment rate, as the ECL rate.

When there is evidence indicating that the debtor is in severe financial difficulty and there is no realistic prospect of recovery, the credit risk management department of the Group would continue to engage in enforcement activity in compliance with laws and regulations. The trade receivable will be written off when the amount due is collected.

The amount of loss provision on notes and accounts receivable is presented below:

The Group's investment properties are located in Suzhou City, Jiangsu Province, China. Due to the land is included in the industrial districts, the market for comparable properties is inactive and alternative reliable measurements of fair value are not available. Therefore, the fair value is not reliably measurable.

In addition to said circumstances, the fair values of the Group's investment properties were NT\$1,153,076 thousand, NT\$1,116,414 thousand and NT\$1,154,198 thousand, respectively, on September 30, 2024 and December 31 and September 30, 2023. Said values were not evaluated by independent appraisers but determined by the Group based on the market evidence in reference to the transaction price of similar properties.

All of the Group's investment properties are held under freehold interests. For the amount of investment real estate set by the Group as a loan guarantee, please refer to Note 33.

- 1) Such capital surplus may be used to offset a deficit; in addition, when the Company has no deficit, such capital surplus may be distributed as cash dividends or transferred to share capital (limited to a certain percentage of the Company's capital surplus and to once a year).
- 2) Such capital surplus arises from the effect of changes in ownership interests in subsidiaries that result from equity transactions other than actual disposals or acquisitions, or from changes in capital surplus of subsidiaries accounted for using the equity method.

#### c. Retained earnings and dividend policy

Under the dividend policy as set forth in the Articles of Incorporation, where the Company made any profits in a fiscal year, the profits shall be appropriated, less any paying taxes and deficit, 10% thereof as legal reserve, special reserve provided or reversed in accordance with the regulations, and 30% to 100% of the sum of the remainder and prior years' unappropriated earnings as dividends. The Company's Articles of Incorporation also prescribe that 30% to 100% of dividends shall be paid in cash; however, if the Company has major investment plans for which external funds are

not available, the percentage may be lowered to 5% to 20%. The distribution plan shall be proposed by the Company's board of directors and resolved in the shareholders' meeting for distribution of dividends and bonus to shareholders. For the policies on distribution of the compensation of employees and remuneration of directors in the Articles of Incorporation, please refer to Note 26(i) "employees' compensation and remuneration of directors."

Appropriation of earnings to legal reserve shall be made until the legal reserve equals the Company's paid-in capital. Legal reserve may be used to offset deficit. If the Company has no deficit and the legal reserve has exceeded 25% of the Company's paid-in capital, the excess may be transferred to capital or distributed in cash.

The Company held its annual general meeting on June 19, 2024 and June 16, 2023 to resolve earnings distribution plans for 2023 and 2022, respectively, as follows:

	2023	2022

If the Company offered to settle compensation paid to employees in cash or shares, the Company assumed the entire amount of the compensation would be settled in shares and the resulting potential shares were included in the weighted average number of shares outstanding used in the computation of diluted earnings per share, as the effect is dilutive.

Such dilutive effect of the potential shares is included in the computation of diluted earnings per share until the number of shares to be distributed to employees is resolved in the following year.

4) Valuation techniques and inputs applied for Level 3 fair value measurement

The valuation techniques of unlisted shares with no active market are mostly the market and asset valuation methods.

The market method takes into account the market prices and status of object similar to the investment objects to measure the latter's fair value.

The asset method mainly takes into account the investment objects' net asset values for fair value measurement.

#### c. Financial risk management objectives and policies

The Group's major financial instruments include cash and cash equivalents, equity and debt investments, mutual funds, trade receivables, trade payables, and borrowings. The Group's Financial Department provides services to the business, coordinates access to financial markets, monitors and manages the financial risks relating to the operations of the Group through internal risk reports which analyze exposures by degree and magnitude of risks. These risks include market risk (including foreign currency risk, interest rate risk, and other price risk), credit risk and liquidity risk.

#### 1) Market risk

The Group's activities exposed it primarily to the financial risks of changes in foreign currency exchange rates (see a) below) and interest rates (see b) below).

#### a) Foreign currency risk

The Group has monetary assets and monetary liabilities denominated in currencies other than the functional currency, which exposes it to foreign currency risk. The Group monitors exchange rate fluctuations and takes appropriate actions to manage the exchange rate risk.

For the monetary assets and liabilities of the Group denominated in non-functional currencies on the balance sheet date (including those written off in the consolidated financial statements), refer to Note 35.

#### Sensitivity analysis

The Group is mainly exposed to the fluctuation of RMB, USD, EUR, AUD, CHF, and SGD.

The following table details the analysis on the Group's sensitivity to a 3% increase or decrease in the functional currency against the relevant foreign currencies. A change of 3% is the sensitivity rate used when reporting foreign currency risk internally to key management personnel and represents management's assessment of the reasonably possible change in foreign exchange rates. The sensitivity analysis used the outstanding foreign-currency denominated monetary items at the end of the reporting period and assumed the exchange rates at the end of the reporting period changed by 3%. The amount below indicates an increase (decrease) in pre-tax profit associated with the functional currency weakening by 3% against the relevant currency. For a 3% strengthening of the functional currency against the relevant currency, there would be an equal and opposite impact on pre-tax profit and the balances below would be negative.

vi. This was mainly derived from the outstanding SGD-denominated bank deposits and payables which were not hedged at the end of the reporting period.

#### b) Interest rate risk

The Group was exposed to interest rate risk because entities in the Group borrowed funds at both fixed and floating interest rates. The Group pays attention to the fluctuations of interest rates in the market, and takes appropriate actions to manage the interest rate risk.

The carrying amounts of the Group's financial assets and financial liabilities with exposure to interest rate risk at the end of the reporting periods were as follows.

	September 30, 2024	December 31, 2023	September 30, 2023
Fair value interest rate risk - Financial assets - Financial liabilities	\$ 3,914,071 1,723,803	\$ 3,781,952 1,661,218	\$ 4,328,369 2,389,584
Cash flow interest rate risk - Financial assets	800	171,200	171,200

#### Sensitivity analysis

The sensitivity analyses below were determined based on the Group's exposure to interest rate risk for non-derivative instruments at the end of the reporting period. For floating rate assets and liabilities, the analysis was prepared by assuming that the amount of the asset and liability outstanding at the end of the reporting period was outstanding for the reporting period. A 1% basis point increase or decrease was used when reporting interest rate risk internally to key management personnel and represents management's assessment of the reasonably possible change in interest rates.

If the interest rate increases by 1% and the other variables remain unchanged, the Group's pre-tax profit for the nine months ended September 30, 2024 and

2023 would rise by NT\$6 thousand and NT\$1,284 thousand, respectively. Conversely, if the interest rate decreases by 1%, the pre-tax profit would decline by the same amount.

#### c) Other price risk

The Group was exposed to equity price risk due to its investments in listed equity securities and mutual funds. The Group has appointed designated personnel to monitor the price risk and will consider hedging the risk exposure should the need arise.

#### Sensitivity analysis

The sensitivity analyses below were determined based on the exposure to equity price risks at the end of the reporting period.

If the price increases/decreases by 1%, the pre-tax income for the nine months ended September 30, 2024 would increase/decrease by NT\$10,948 thousand, due to the increase/decrease in the fair value of the financial assets at fair value through profit or loss, and the pre-tax other comprehensive income for the nine months ended September 30, 2024 would increase/decrease by NT\$7,906 thousand, due to the increase/decrease in the fair value of the financial assets at fair value through other comprehensive income.

If the price increases/decreases by 1%, the pre-tax income for the nine months ended September 30, 2023 would increase/decrease by NT\$5,871 thousand, due to the increase/decrease in the fair value of the financial assets at fair value through profit or loss, and the pre-tax other comprehensive income for the nine months ended September 30, 2023 would increase/decrease by NT\$3,962 thousand, due to the increase/decrease in the fair value of the financial assets at fair value through other comprehensive income.

#### 2) Credit risk

Credit risk refers to the risk that the counterparty will default on its contractual obligations resulting in financial loss to the Group. As of the balance sheet date, the Group's maximum exposure to the risk of financial loss due to counterparties' default on contractual obligations (specifically, the maximum amount of irrevocable exposure without taking into consideration the effect of collaterals and other credit enhancements) is represented by the book value of financial assets shown on the consolidated balance sheet.

The accounts receivable cover a number of customers in different industries and geographical areas. The Group continuously evaluates the collateral and financial status obtained by accounts receivable customers.

# 3) Liquidity risk

The Group manages liquidity risk by monitoring and maintaining a level of cash and cash equivalents deemed adequate to finance the Group's operations and mitigate the effects of fluctuations in cash flows. In addition, the Group's management monitors the utilization of bank borrowings and ensures compliance with loan covenants.

The Group relies on bank borrowings as a significant source of liquidity. Until September 30, 2024 and December 31 and September 30, 2023, the facilities remaining unused by the Group have been NT\$8,250,301 thousand, NT\$7,864,874 thousand and NT\$5,721,068 thousand.

#### Liquidity and interest rate risk table for non-derivative financial liabilities

The following table details the Group's remaining contractual maturity for its non-derivative financial liabilities with agreed repayment periods. The table had been drawn up based on the undiscounted cash flows of financial liabilities from the earliest date on which the Group may be required to pay. The table included both interest and principal cash flows. As a result, bank loans of the Group that are

repayable on demand are included in the earliest period presented regardless of the probability of the banks exercising their right immediately. The maturity analysis for other non-derivative financial liabilities is prepared based on the agreed repayment dates.
